ABOUT ME

Being a passionate AI/ML enthusiast I am dedicated to building user-friendly and innovative solutions to real world problems. Having experience in building centralized programs to simplify complex workflows, I am also dedicated to continuous learning and leveraging my technical skills to create efficient solutions.

SKILLS

- **AI/ML**: Agentic AI, Machine Learning, Deep Learning, Gen AI, Computer Vision.

- **Libraries**: OpenCV, Paramiko (SSH), BeautifulSoup (Web Scraping), Psutil (Resource monitoring)

- **DevOps**: Jenkins, Docker, Linux, Git, Kubernetes.

- **Cloud**: Aws (Ec2, S3 Buckets, Lambda), AWS Boto3 (SDK).

PROJECTS

Centralized Dashboard
- Developed a Menu-based dashboard combining Aws, Docker and Linux management into one program.
- Streamlined infrastructure management and eliminated the hassle of traversing between many CLI tools and Cloud consoles.

EDUCATION

2024	**High School** Central academy, Rajasthan, India
2024 - 2028	**B.Tech. CSE Specializing in Artificial Intelligence and Data Science** Vivekananda Global University, Rajasthan, India

EXPERIENCE

LinuxWorld Informatics Pvt. Ltd.   15th June 25 - 1st August 25

Research Based Intern
- Developed a Centralized dashboard made by using Streamlit to connect the multiple technologies into a single menu driven project.
- Leveraged Docker, Jenkins, Kubernetes and Aws to help streamline monitoring, decrease deployment time and make management more efficient.

CERTIFICATES

Certification Name	Certification Number
- **Exin AI Essential**	- 6599362.20883409
- **Exin Cloud Computing Foundation**	- 6599362.20907065
